

# BUBBLE GUPPIES

## FINGER PUPPETS

Put on a puppet show with your little guppy using these easy-to-make finger friends!

All you'll need (along with these printables) are scissors, tape, and puppeteers!

Carefully cut out finger puppets and the Guppies' heads along the dotted lines.

Next, take Guppy head A and affix it to Tab B with tape or glue.

Then, place the tail on the index finger facing the thumb, and wrap the tab around the

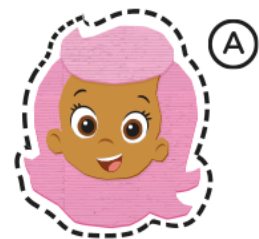

bottom half of your child's finger (not too tightly).

Once secure, use tape to affix the tab to the fin. Complete your puppet by adding the face to the top of the same finger, wrapping the tab around the finger and using tape to hold it in place. Safely snip off any excess pieces.

Now you can put on a fin-tastic show!
