

TEAM Umizoomi Bot Egg

WHAT YOU'LL NEED

- Green plastic jumbo egg*
- Black sharpie
- Bot printable templates
- Scissors
- Craft glue
- Orange modeling clay
- Blue pipe cleaner, cut to 1.75 inches
- Yellow modeling clay
- Green construction paper
- Stapler (optional)

*Parent Tip

Using wooden or plastic eggs is a sure-fire way to avoid the breakies and the smellies. You know what we mean...

HOW TO MAKE

STEP 1

With the fatter part of the egg at the top, draw on two eyes, using the photo for reference.

STEP 2

Roll a fingertip-sized ball of orange clay and place slightly to the right of the top of Bot's head. Roll an even smaller ball of yellow clay and attach to one tip of the pipe cleaner. Stick the other end of the pipe cleaner into the orange clay atop Bot's head.

STEP 3

Cut a 2-inch square of green construction paper. Cut it in half to make two triangles. Roll one triangle into a cone shape around the top of the pipe cleaner and glue the sides together.

STEP 4

Cut a 2x7-inch strip of green paper and glue or staple into a ring. Print and cut the Bot templates and glue to the green ring.

STEP 5

Place Bot inside his belly belly belly screen!
